COMMENTS FROM THE OFFICE OF THE TOWN MANAGER

A request has been received from the Editor of Special Editions of the Portland papers to supply, for the annual State of Maine Edition, information pertaining to Bethel. They would like four or five pages of double-spaced typewritten copy describing the industrial growth, area for additional new plants, recreational facilities and historic points of interest for vacationers. They would also like photographs to be included.

If anyone has any knowledge that might be of interest to the public concerning the history of Bethel they could leave the information at the Town Office and I will attempt to either compile it myself or find someone with more talent for writing to do it for me. Regardless of how it is done the various points of interest should be brought forth by people who would have the information.

The special edition is to carry stories of the towns in Oxford County and we hope Bethel can be well represented.

BETHEL WINS NATIONAL RECOGNITION IN 1969 GUIDE

Bethel has won recognition in the newest edition of the country's best selling national tourist guidebook, the 1969 Mobil Travel Guide.

Out of all the cities and towns in the U. S., only 4,208 were considered to have enough tourist-appeal for inclusion in the guides. Bethel is one of them.

In addition to giving information on where to go, the books list over 23,000 places to eat and sleep with each one rated on a one to five star basis. One star indicates "good, better than average." Five means "one of the best in the country." Only 35 establishments have five star status in the new edition.

All ratings are revaluated each year. Listings and ratings are based on reports from a corps of trained inspectors, local and regional consultants and an analysis of the over 100,000 pieces of reader mail received by the editors.

The guide is available at all Mobil stations. It is published in seven 300-page regional editions which contain road atlases, city maps, auto tours and a wealth of other travel information.

CRESCENT PARK SCHOOL VOLUNTEER MOTHERS REPORT

The volunteer Mothers working on C. P. S. library would like to report they have found this project most rewarding. The fact that each time the library is opened (1 hour, 9:15-10:15): Monday—third grade; Tuesday, fourth grade; Wednesday—fifth grade; Thursday—sixth grade, that every student in each grade seems eager to come to the library and does take out a book, with interest!

Beginning a year ago last September the volunteers attempted to bring this library up-to-date, not book wise, but put in order according to National library specifications, using the Dewey decimal system. Up until this point each book put into the library was numbered. (Example) If a new book was added, it was numbered 945 because the book before was 944. Putting this library in order was a bit of a job, more than any of the volunteers anticipated. However, they are doing it and enjoying it.

Some may think this is foolishness and not necessary. In our schools we're supposed to be teaching the children things of the world. Reading is very important and a library you can find almost anywhere you may roam. We thinks it's important these children should know how to use the library properly. One cannot start too young.

At Ethel Bisbee School, kindergarten through grade 2, there is a library. The credit for this should go to Mrs. Bernice Noyes, who does remedial reading there. An important part of her program is to provide books for these children, having trouble, that they can read at their level and still be interesing and informative. Mrs. Noyes personally provided these books little by little raising money through selling pens etc. until she accumulated quite a number of books for her remedial

The Assessors have completed work on the 1969 taxes and have set the tax rate at .009, on an assessed valuation of $368,880. The 1969 rate is up .011 from last years rate. Because of some new valuation and an increase in the excise tax paid in 1967 over 1967, the increase in the tax rate is somewhat less than was anticipated. Tax bills will be delivered sometime in May and a 2% discount will be allowed on all taxes other than poll, paid within 30 days of date of bill.

Ten day notices have been sent out to real estate owners who have not paid their 1968 tax, and tax liens will be placed on this property at the expiration of ten days. At this time there are four owners who have not paid. The total of the unpaid real estate taxes is $181.28.

WOODSTOCK

Each family at the Seventh-day Adventist School on April 26, took home a loaf of bread.

This bread however is not designed for eating. Each loaf is a light-brown plastic bank to hold the family's contribution to the "Disaster and Famine Relief" offering to be received on May 10. 116,000 of these plastic loaf-banks have been distributed to Adventist families in the United States and Canada. It is expected that $300,000 will be realized from this special offering.

Ordinarily this special offering is taken only once in two years. But because of the steady climb in disasters, such as earthquakes, floods and droughts, besides the tragedies of wars and riots, this fund was depleted six months ago.

The volunteer work associated with the Adventists' relief program greatly extends the use use of these funds, and aid is given without regard to race, color or creed in nearly 200 countries where the Adventist Church has organized work.

GREENWOOD CITY

— Mrs. Celiste Morgan, Correa. —

"Though we can still trace the hand of winter our feathered friends are with us. Nature paused as she passed over the earth and is opening her stores to these, our friends. They are beginning to pour forth their notes of softness and richness. They soar high, glancing around with vigilant eye, dance through the air full of animation and delight.

Nests are to be prepared and by mutual consideration the choice of a place is established.

From the roadsides flickers bound up, light on a tree and hang their heads peering over their shoulders. They've acquired many names; high-holer, wick-up, yellow-hammer, and wood pigeon. They are a friendly bird as far as the bird world is concerned and call "cut-cut-quit-U-quit-U".

Sparrows along the ditches, banks, lawns; the chipping, white throated, and most welcome of all the song sparrows, sings throughout the entire day and long into the evening. There's magic in this small bird's note!

The purple finch blossoms into melody and is a living sunbeam; a spark of light that shines and sings, from high up, his long sweet warble.

Out of the swamp tangle come the notes of the red-winged black-bird "Conk-err-ee". These birds have the power to impress. The beauty of their wings flash along the rivers almost hidden in an alder thicket. The display of color delights even the stolid human eye.

The tree swallows are with us once more and play about the better part of the morning on their hunt for insects.

Precious robin always our joyous, dependable friend, calls clear and sweet his "cheerily cheer-up" morning and evening as his breast he swells.

And in a triangle across the April sky this week the wild geese honked a salute. One flock nestled among the ripples on the pond. For a time they enjoyed themselves as they walked the ice or rested on the waves. Then taking counsel they once again left for the high majestic blue so wild and free — patterned in the sky, gray and graceful, while below, the cool silver water sparkled in its frame of white.

MAGALLOWAY

— Mrs. Bessie Harvey, Correa. —

It is necessary for me to correct a mistake I made in my last week's news. I understood that Abner Campbell of Unity died in a Waterville hospital but he died at Togus in the Veterans Hospital. His funeral was held at Danforth, Maine, on Tuesday, April 22, and he was buried at Danforth. It was a military funeral and the flag from his casket was presented to his son, Paul, of Unity.

Mr. and Mrs. Harold McGinley of Whitefield spent the week end at their summer home in Wentworth Location and found everything in good shape.

Mr. and Mrs. George Stranger of Berlin with Joey and Scotty were at their farm in Magalloway, Sunday.

Gordon Bragg visited his mother, Mrs. Cora Bragg, at the Stewartstown hospital Saturday. Her health remains about the same as does Mrs. Mabel Cameron's.

Mrs. Jerry Young is a patient also at the Stewartstown hospital.

I have two new great granddaughters, Stacy Ann Sabins of Newcastle, Maine, and Angela Marie Fortin, of Winslow, Maine.

Michele Albert, the two-year-old daughter of Mr. and Mrs. Norman Albert of Berlin is visiting her grandparents, Mr. and Mrs. Hark Harvey.

The smelts have started to run a little but the weather is so cold and the snow so deep there are few fishermen.

We had five inches of snow one morning last week. The meter-reader from Berlin said he ran into snow, rain, sleet and hail on his way up one afternoon.

Christian Science

"Everlasting Punishment" is the subject of Sunday's Bible Lesson Sermon in all Christian Science churches.

A verse from Psalms in the Responsive Reading states: "The Lord executeth righteousness and judgement for all that are oppressed."

"Divine Love corrects and governs man. Men may pardon, but this divine Principle alone reforms the sinner." This correlative passage is from the denomination's textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy.

FIRST THERE WAS ONE *now there are six. On April 10, Mrs. Brown's second graders at Ethel Bibee School placed eight bantam eggs into an incubator, hoping that in 21 days we would have some chicks. Water was placed in the incubator for moisture and the eggs were turned very diligently three times a day. When we came to school Monday morning April 21 three of the eggs were cracked. By 10:20 that morning the first chick had broken its way out of the shell. After lunch we had our second animal and around 4 in the afternoon the third chick had been born. When we arrived Tuesday morning three more chicks had hatched making a total of six. We have an assortment of colors, two yellow, one black and four multicolor.*

The project was well worthwhile as the children actually saw two chicks being born and realized that not all survived as we lost two. What made it even more interesting was that the births were premature. They weren't supposed to hatch until Wednesday or Thursday of this week. Our only problem now is competing with the chirps!!!

20 SECONDS WITH THE NAZARENE

"The road to God not only has to be sought out and found; it must be cleared by those who do seek to travel it. For each of us, there are special roadblocks: traits of character, attitudes, convictions, that make the travel difficult. And yet, the wonder of God is that, when we cry out to Him, He will give us the tools, the grace, the blessings, to clear the road and reach Him."

Dear Editor:

My name is Susan McNear and I am a student at Gorham State College. I was given a research paper in English on "Maine Place Names of Oxford County." I was wondering if you could publish a list of these names in your paper to see if your readers could give me any information:

Lincoln, Maine; Abbott Brook, Barney Brook, Bennett Brook, Observatory Mountain, Parker Hill, Sanderson Brook; Wilson's Mills.

Lovell, Maine; Anderson Brook, Bradley Pond, Buck Island, Christian Hill, Coffin Brook, Dan Charles Pond, Edgecomb Hill, Fairview Hill, Foster Hill, Hamblin Hill, Hatch Hill, Howard Mountain, Joe McKeen Hill, Kennistqn Hill, Martin Brook, McDaniels Hill, Patterson Hill, Skillings Hill, Slab City.

All I have to know about these names is why or who they were named for.

Sincerely yours,

4/23/69

There have been several letters written to the editor regarding the Modular System of scheduling classes at the new high school. Since the theme of these letters and of the remarks made by other directors seem to indicate a feeling that we stand against this system, we felt that a letter from us might clarify this and other issues.

We are not urging the removal of the modular system—rather, we are urging an upgrading and some slight revision of it.

First, let us explain that our suggested changes which were tabled at the last Board of Directors meeting were brought up at the suggestion of others. It was in response to the many complaints we received regarding some of the methods used at the new high school that we asked for a chance to discuss possible alternative methods. We did not originate these changes, but we do agree with them. Our feelings are that we should represent the voters, and when several complain about a situation and months go by with no change, we feel it should be brought up for discussion.

Since the administration and letter writers agree that such things as excess wasted time and corridor wandering should be looked into, we feel satisfied that action will be taken. The reporting of grades is another item we feel could be improved and this, according to the Superintendent will be changed. The English curriculum is also undergoing a change and we hope that next year's course of studies will satisfy the students and their parents.

The points we would like to emphasize are:—

1. We are trying to respond to the wishes of the voters.

2. There was little said about any of the above changes being contemplated until we asked for a discussion of them, even though, contrary to Mr. Snyder's statement that these items were not investigated, they were actually discussed with both the Principal and Superintendent.

3. We all feel that the new system and the administration of it should be given another year to run before making an overall judgment.

Controlling the News—Why??

Controlling the news and forbidding the people to speak and write any thing that disagrees with their ideas was one of the first tactics that the Communists used to subjugate the people after taking over Czechoslovakia. Are we getting a small taste of this type of thing here? I'll let you decide.

Mr. Sidelinger at the April 21st S. A. D. 44 Director's Meeting read a statement and I quote—"We must put a stop to these letters to the Editor". I would like to ask—Why? At other occasions it has been suggested that the press be controlled —Why? The taxpayers are paying the bills for education and I feel they have the right to an insight into the running of the school they are paying for. Certainly it is difficult for everyone to attend meetings and to separate fact from fiction unless someone else is willing to set some facts down on paper. I feel that an occasional letter that states facts, asks questions and causes people to discuss the school will result in a better understanding of issues. This is one of the purposes of a newspaper.

Again replying to Mr. Sidelinger when he states—"If we allow a small minority to dictate to us and our staff, we may as well close the school. We will always have a discontented staff and discontented students. Discontentment breeds resentment; and beyond that, who knows what." I'd like to ask publicly, what are you worried about Mr. Sidelinger? Why don't you take a page from the Dale Carnegie book and say—"What's the worst that can happen?" If we prepare ourselves for that, anything less than the worst is gain. I don't think a posture of worry and fear of what might happen is a healthy attitude for any director to have. Certainly it does not gain the confidence of the people.

There are other statements made I could take issue with, but I feel that the following quote taken from the Laconia Citizen of April 22, 1969 describes my feelings:—"We have stated, several times, that our officials following election seem for some reason many times to allow their sense of power to overcome their sense of reason. It seems that some of them tend to forget that they are elected to 'represent' their constituents . . . not to 'dominate' them. It should be their purpose when proposals are made to discuss with their constituents to determine the 'majority will of the people' and to abide by the opinions of this 'majority' even though this may not coincide with their personal thoughts and/or ambitions. This, friends, is the intended method of functioning under the American form of government which somehow is altogether too often overlooked or advantageously forgotten."

I also agree with Gail C. Scribner that it is insulting to go to a Board meeting and be asked during the meeting to leave the room while the directors go into "Executive Session". I've suggested holding executive sessions at the end of the meeting if they are necessary. (I would like to see them abolished and everything out in the open, but there may be good and valid reasons why this is impossible.) I feel very uncomfortable sending people out to stand and wait in the hall while directors meet secretly. The polite thing to do, if secret meetings must be held, would be for the directors to leave the room and allow the visitors to remain seated.

I'll look forward to seeing several of you at the next board meeting.

C. P. S. LIBRARY

continued from Page One

classes. The children not in her classes wanted to take out books also—so it developed. An arrangement was made so those wishing to get a book to read might borrow from her collection. This shows the interest.

The process that covers a single book in the library is probably not realized by some. Many books are on the shelves. If a child should ask for a certain book and there are many books, how do you find it? Filing cards are made out according to Subject, Author, Title and a shelf list, making at least four cards per book. These are filed. Books are marked and put on shelves in order. Now someone has to do this work or at least take charge to see that it is done properly. Certain people think this is not important, that there is no reason for doing all this. "Haven't had it done before, why now?" This is progress and we are way behind.

Everyone interested is invited to visit the library and see the improvement. There is a need for new books. Donations of suitable books would be most gratefully accepted. Spring is coming and spring cleaning is beginning. You might pass your children's outgrown books to this good cause.

Workers for the library include Mrs. Thomas Jeffries, Mrs. Roger Palmer, Mrs. Robert Kenlston, Mrs. Wilfred Coolidge, Mrs. John Greenleaf, Mrs. Frank Hunt, Mrs. Albert Buck, Mrs. Robert Record, Mrs. Frank Lowell, Mrs. Paul Kelley, Mrs. Avery Angevine, Mrs. Henry Robertson, Mrs. Bradley Benson, at the Crescent Park School.

At the Bisbee School, workers are Mrs Blake MacKay, Mrs Donald Brooks.

To the bird watchers: This morning we saw a flock of chipping sparrows. It seems they have been a bit tle delayed because they are among the other sparrows usually. An evening grosbeak graced the feeding station one morning, too.

The New England Regional Student Program now offers an opportunity to earn a degree in certain curricula not available at a New England resident's own state university. Qualified residents of the six New England states will pay in-state tuition at the recipient New England state university if accepted in one of the regional curricula. Each state university gives first priority in admission to qualified students from his own state and second priority to other qualified New England students applying for regional curricula. For a trial period of 1968-69 through 1970-71 freshmen admission to these undergraduate curricula will be allowed and encouraged. Any student or parent interested in obtaining further information should contact Mrs. Priscilla Hotte in the Guidance Office.

The Guidance Office has received word that the following students have been admitted to college for Sept. 1969: Susan Brooke, Butler University, Indianapolis, Ind.; Margaret Sylvester, Farmington State College.

ACTIVITIES

John Tebbets, manager of Ekco Housewares Company, was the guest speaker last Friday morning for Mrs. Lila Weaver's class in Constitutional Law. Mr. Tebbets spoke about the recent Harvard riots and later answered questions from the students. Besides Mrs. Weaver's class others present were the social studies classes of instructors Walter T. Ruark, Francis Bean and William Morton.

After a thoroughly enjoyable two weeks abroad, Telstar's Mallorcan Tour students flew into Boston last Friday, ending a memorable vacation. Experiences and observations are as individual as each of the fourteen students who made the trip, but there are some general impressions common to all: 1) Europeans seem warmer and friendlier than Americans, and they are much more demonstrative. 2) The native Mallorcans did not appear as different as had been expected; in fact they looked almost like Americans. 3) Surprising all of the Telstar students was the scarcity of milk. Very little of that beverage is consumed and another very un-American custom is that there are no sandwiches. 4) It is customary to argue over prices with shopkeepers, and on a few occasions some of the students even managed to win!

Not all contact was with foreign students. The Telstar people met many sailors from two American ships and one Spanish ship. They visited the Little Rock, flagship of the American Sixth Fleet, and were served a meal on board.

On the return trip they spent 24 hours in Paris. This gave them time to see the Louvre and Notre Dame, and some climbed the Eiffel Tower. The students saw a great many political posters dealing with the referendum vote on the following Sunday. A predominance of NO's was noted.

Next week an exhibit of souvenirs bought on the trip will be placed in the Library display window. This will present a bit of the flavor of Mallorca and Paris to us at Telstar as we all eagerly await the developing and printing of all those rolls and rolls of film.

Today Mrs. John Trinward's classes in Business Math, Bookkeeping 1 and Bookkeeping II enjoyed as guest speaker, Edmond Vachon, Treasurer of the Bethel Savings Bank. Since these classes are about to begin a unit on computing interest, Mr. Vachon used that subject as his topic, explaining and clarifying points for the students.

The Faculty Follies, which were to have been presented on May 2, have been postponed. The tentative new date for the performance is Thursday, May 22.

The Telstar Awareness group announces the second in their series of programs to acquaint parents and students with the hazards of drugs and drug abuse. On May 8, at 7:30, Mr. James Milligan, Security Officer, Department C, Poland Spring Job Corps for Women will give a lecture on drugs at the Telstar Auditorium. Mr. Milligan, who is reported to be an excellent speaker, is a graduate of the Federal Bureau of Narcotics in Washington and a 22 year veteran of the State Police, where most of his work has dealt with narcotics. An interesting feature of Mr. Milligan's lecture is that he brings samples of various drugs to show to his audience to better enable them to recognize such substances. Parents and interested students are urged to attend what promises to be a most interesting and informative lecture.

As a result of the recent voting for class representatives to the Student Council, the following have been elected: **Grade 7**—Matthew Elliot, Terry Inman, Kathy-Jo Morrill, Kelly Olson, John Snyder, Betsy Stowell. **Grade 8**—Mary Andrews, Toni Conrad, Glenn Carver, Roberta Croteau, Mike Davis, Sean Flynn. **Grade 9**—John Merrill, Merrie Robertson, Tom Sauret. **Grade 10**—Sue Hutchins, Jodie Packard.
